2022 Summer Camps

Fun-filled summer camps for young learners in Northeast Pennsylvania!

Fun and learning don't stop just because the school year does.

MMI's outstanding faculty will join Minds in Motion, Inc., and L&K Productions to offer a series of unique summer experiences on MMI Preparatory School's campus.

You and your young learners can choose from a number of STEM, literary, and athletic camps that will keep them curious and learning during the summer break.

MMI's summer camps are open to anyone.

Campers staying all day should bring a bag lunch and will be supervised over the lunch break. Morning and afternoon snacks are provided.

Space is limited. Register today!

Complete the form in this booklet and send it with your payment to:

Week of July 11, 2022

CSI Camp

Time: 9 am - 12 pm

Ages: 6-12

Price: \$150

Instructor: Michele Tyburski

Class Size: Maximum 10

Have you ever wondered what kinds of work forensic scientists perform at crime scenes? Are shows like CSI, NCIS, and Criminal Minds scientifically accurate? To find out the answers to these questions and others, join us for Crime Scene Investigation (CSI) Camp! Learn the actual techniques of forensic scientists as they gather information at a crime scene. Fun projects include:

- Assess a crime scene and safely collect evidence.
- Gather physical evidence such as fingerprints and shoe prints.
- Analyze the handwriting on a ransom note.
- Perform biological and chemical analyses on human hair and other evidence.
- Much more!

Please note: graphic images and discussions will not be part of this program.

Mythbuster's Camp

Time: 12:30 pm - 3:30 pm

Ages: 6-12

Price: \$150

Instructor: Michele Tyburski

Class Size: Maximum 10

Be prepared to explore the world of chemistry and physics during this camp as we examine questions such as: Does milk really contain plastic? Is it possible to walk on eggs without breaking them? Can you pull a tablecloth out from under a set table without disturbing the dishes? Bring your curiosity and see which myths are confirmed, plausible, or busted!

Brick By Brick Camp

Time: 9 am - 12 pm

Ages: 7-14

Price: \$150

Instructor: L&K Productions

Class Size: Maximum 10

This summer, L&K Productions are bringing back all their LEGOs so that you can build a LEGO-filled world and a story to go with it. Which team will make the greatest stop motion LEGO adventure of the summer? Come join us as we teach you the basics of stop motion with the help of LEGO, from building to the final edits of your films. If you are an advanced animator, don't worry. We have plenty of skills to teach you as well. Not only will we be making films, but the teams will also get to make their own LEGO race car. Our LEGO derby is one you don't want to miss.

Pretty Scary Mashup Film Camp

Time: 12:30 pm - 3 pm

Ages: 7-14

Price: \$150

Instructor: L&K Productions

Class Size: Maximum 14

This summer L&K Productions are bringing monsters and princesses together for one wild ride. When the monster world collides with the princess world, who knows what will happen? Join to create the script, the characters, and the fun as we bring this story to life! There is a role for everyone from acting to behind the scenes. L&K will be working with you on costumes, green screen work, acting, makeup, and much more to make your very own film. We hope to see you there!

Girls Basketball Camp

Future Engineers

Time: 9 am - 12 pm

Ages: 7-12

Price: \$150

Instructor: Minds in Motion, Inc.

Class Size: Maximum 10

If you like to create and build things, this program is for you! Take home your very own engineering kit! You will build up to eight working models, including a material lift, stationary bike, crane bridge, construction crane, and a windmill! With the aid of your instructor and the easy-to-follow manual, you will learn different scientific principles involving pulleys and mechanics. You will also learn about basic circuits as you construct a maze challenge, flying disc, turbo air, and alarm system with our STEM lab kit! The STEM lab teaches future engineers how to comprehend a schematic diagram and interpret the flow of electricity. Design your own diagrams and watch your confidence soar as you transform wires, springs, and plastic parts into fully functioning circuits. Come obtain the necessary skills and experience to take on the technological challenges of the future!

Solar Bots
